**PROXY STATEMENT FOR THE ANNUAL MEETING OF STOCKHOLDERS**  
**TO BE HELD ON TUESDAY, JUNE 14, 2016**

**Information About the Annual Meeting and Voting**

This proxy statement is furnished in connection with the solicitation of proxies by the board of directors (the “board of directors” or the “board”) of Merrimack Pharmaceuticals, Inc. (“Merrimack,” “we” or “us”) for use at the 2016 Annual Meeting of Stockholders (the “Annual Meeting”) to be held on Tuesday, June 14, 2016, at 3:00 p.m., Eastern time, at our headquarters at One Kendall Square, Suite B7201, Cambridge, Massachusetts 02139, and at any adjournment or postponement thereof. On April 19, 2016, the record date for the determination of stockholders entitled to vote at the Annual Meeting, there were outstanding and entitled to vote an aggregate of 125,536,023 shares of our common stock, par value \$0.01 per share (“common stock”). Each share of common stock entitles the record holder thereof to one vote on each of the matters to be voted on at the Annual Meeting.

This proxy statement, the enclosed proxy card and our 2015 annual report to stockholders were first made available to stockholders on or about April 25, 2016.

Your vote is important no matter how many shares you own. Please take the time to vote. Take a moment to read the instructions below. Choose the way to vote that is easiest and most convenient for you, and cast your vote as soon as possible.

If you are the “record holder” of your shares, meaning that you own your shares in your own name and not through a bank, broker or other nominee, you may vote in one of four ways:

- (1) *You may vote over the Internet.* You may vote your shares by following the “Vote by Internet” instructions on the enclosed proxy card. If you vote over the Internet, you do not need to vote by telephone or complete and mail your proxy card.
- (2) *You may vote by telephone.* You may vote your shares by following the “Vote by Phone” instructions on the enclosed proxy card. If you vote by telephone, you do not need to vote over the Internet or complete and mail your proxy card.
- (3) *You may vote by mail.* You may vote by completing, dating and signing the proxy card delivered with this proxy statement and promptly mailing it in the enclosed postage-paid envelope. If you vote by mail, you do not need to vote over the Internet or by telephone.
- (4) *You may vote in person.* If you attend the Annual Meeting, you may vote by delivering your completed proxy card in person or you may vote by completing a ballot at the Annual Meeting. Ballots will be available at the Annual Meeting.

All proxies that are executed or are otherwise submitted over the Internet or by telephone will be voted on the matters set forth in the accompanying Notice of Annual Meeting of Stockholders in accordance with the stockholders’ instructions. However, if no choice is specified on a proxy as to one or more of the proposals, the proxy will be voted in accordance with our board of directors’ recommendations on such proposals as set forth in this proxy statement.

After you have submitted a proxy, you may still change your vote and revoke your proxy prior to the Annual Meeting by doing any one of the following things:

- submitting a new proxy by following the “Vote by Internet” or “Vote by Phone” instructions on the enclosed proxy card up until 11:59 p.m., Eastern time, the day before the Annual Meeting;

## Table of Contents

- signing another proxy card and either arranging for delivery of that proxy card by mail prior to the start of the Annual Meeting, or by delivering that signed proxy card in person at the Annual Meeting;
- giving our Corporate Secretary a written notice before or at the Annual Meeting that you want to revoke your proxy; or
- voting in person at the Annual Meeting.

Your attendance at the Annual Meeting alone will not revoke your proxy.

If the shares you own are held in “street name” by a bank, broker or other nominee record holder, which, for convenience, we collectively refer to in this proxy statement as brokerage firms, your brokerage firm, as the record holder of your shares, is required to vote your shares according to your instructions. In order to vote your shares, you will need to follow the directions your brokerage firm provides you. Many brokerage firms also offer the option of providing for voting over the Internet or by telephone, instructions for which, if available, would be provided by your brokerage firm on the voting instruction form that it delivers to you. Under applicable stock exchange rules, if you do not give instructions to your brokerage firm subject to these rules, it will still be able to vote your shares with respect to certain “discretionary” items, but will not be allowed to vote your shares with respect to certain “non-discretionary” items. The ratification of PricewaterhouseCoopers LLP as our independent registered public accounting firm (Proposal 3) is considered to be a discretionary item, and your brokerage firm will be able to vote on that item even if it does not receive instructions from you, so long as it holds your shares in its name. The election of directors (Proposal 1) and the non-binding, advisory vote on executive compensation, or “say-on-pay” vote (Proposal 2), are “non-discretionary” items, meaning that if you do not instruct your brokerage firm on how to vote with respect to either of these proposals, your brokerage firm will not vote with respect to that proposal and your shares will be counted as “broker non-votes.” “Broker non-votes” are shares that are held in “street name” by a brokerage firm that indicates on its proxy that it does not have or did not exercise discretionary authority to vote on a particular matter.

If your shares are held in street name, you must bring an account statement from your brokerage firm showing that you are the beneficial owner of the shares as of the record date (April 19, 2016) in order to be admitted to the Annual Meeting. To be able to vote your shares held in street name at the Annual Meeting, you will need to obtain a proxy card from the holder of record.

## **Votes Required**

The holders of a majority of the shares of our common stock issued and outstanding and entitled to vote at the Annual Meeting will constitute a quorum for the transaction of business at the Annual Meeting. Shares of common stock represented in person or by proxy (including “broker non-votes” and shares that abstain or do not vote with respect to one or more of the matters presented for stockholder approval) will be counted for purposes of determining whether a quorum is present at the Annual Meeting. The following votes are required for approval of the proposals being presented at the Annual Meeting:

*Proposal 1: Election of Directors.* A nominee will be elected as a director at the Annual Meeting if the nominee receives a plurality of the votes cast “FOR” the applicable seat on our board of directors.

*Proposal 2: Advisory Vote on Executive Compensation, or “Say-on-Pay.”* This proposal calls for a non-binding, advisory vote, and accordingly there is no “required vote” that would constitute approval. However, our board, including our organization and compensation committee, values the opinions of our stockholders and, to the extent there are a substantial number of votes cast against the executive officer compensation as disclosed in this proxy statement, we will consider our stockholders’ concerns and evaluate what actions may be appropriate to address those concerns.

*Proposal 3: Ratification of Independent Auditors.* The affirmative vote of the holders of shares of common stock representing a majority of the votes cast on the matter is required for the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current fiscal year.

---

Shares that abstain from voting as to a particular matter and shares held in “street name” by brokerage firms who indicate on their proxies that they do not have discretionary authority to vote such shares as to a particular matter will not be counted as votes in favor of such matter, and will also not be counted as shares voting on such matter. Accordingly, abstentions and “broker non-votes” will have no effect on the voting on the proposals referenced above.

### *Board Composition*

Our board of directors is currently authorized to have nine members. All of our directors are elected annually for a one year term expiring at the next annual meeting of stockholders. Each director will hold office until his or her successor has been elected and qualified or until his or her earlier death, resignation or removal. Our bylaws provide that the authorized number of directors may be changed only by resolution of our board of directors. Our bylaws also provide that our directors may be removed with or without cause by the affirmative vote of the holders of at least a majority of the votes that all of our stockholders would be entitled to cast in an annual election of directors, and that any vacancy on our board of directors, including a vacancy resulting from an enlargement of our board of directors, may be filled only by vote of a majority of our directors then in office.

### *Board Determination of Independence*

Rule 5605 of the NASDAQ Marketplace Rules requires a majority of a listed company's board of directors to be comprised of independent directors. In addition, the NASDAQ Marketplace Rules require that, subject to

specified exceptions, each member of a listed company's audit, compensation and corporate governance and nominating committees be independent and that audit committee members also satisfy independence criteria set forth in Rule 10A-3 under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Under Rule 5605(a)(2), a director will only qualify as an "independent director" if, in the opinion of our board of directors, that person does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In order to be considered independent for purposes of Rule 10A-3, a member of an audit committee of a listed company may not, other than in his or her capacity as a member of the audit committee, the board of directors, or any other board committee: (1) accept, directly or indirectly, any consulting, advisory or other compensatory fee from the listed company or any of its subsidiaries; or (2) be an affiliated person of the listed company or any of its subsidiaries. In addition, in affirmatively determining the independence of any director who will serve on a company's compensation committee, Rule 10C-1 under the Exchange Act requires that a company's board of directors consider all factors specifically relevant to determining whether a director has a relationship to such company which is material to that director's ability to be independent from management in connection with the duties of a compensation committee member, including, but not limited to: (i) the source of compensation of the director, including any consulting, advisory or other compensatory fee paid by such company to the director; and (ii) whether the director is affiliated with the company or any of its subsidiaries or affiliates.

Based upon information requested from and provided by each director concerning his or her background, employment and affiliations, including family relationships, our board of directors has determined that none of Mr. Crocker, Mr. Dineen, Dr. Lee, Dr. Mendelsohn, Dr. Porter, Mr. Quigley and Mr. Ray, representing seven of our nine directors, has a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is "independent" as that term is defined under Rule 5605(a)(2) of the NASDAQ Marketplace Rules. Our board previously made a similar determination of independence with respect to Anthony J. Sinskey, who served as a director until January 2015, and Gordon J. Fehr, who served as a director until June 2015. Our board of directors has also determined that Mr. Crocker, Mr. Quigley and Mr. Ray, who comprise our audit committee, Mr. Crocker and Dr. Porter, who comprise our corporate governance and nominating committee, and Mr. Dineen, Dr. Lee and Dr. Mendelsohn, who comprise our organization and compensation committee, each satisfy the independence standards for such committees established by the SEC and the NASDAQ Marketplace Rules, as applicable. In making such determination, our board of directors considered the relationships that each such non-employee director has with Merrimack, including any transactions of the type described below in "—Board Policies—Related Person Transactions," and all other facts and circumstances our board of directors deemed relevant in determining independence.

## **How Our Board Is Organized**

### *Board Leadership Structure*

Our board of directors, upon the recommendation of our corporate governance and nominating committee, has determined that the roles of Chairman of the Board and Chief Executive Officer should be separated at the current time. Accordingly, our board has appointed Mr. Crocker, an independent director within the meaning of NASDAQ Marketplace Rules, as the Chairman of the Board.

Mr. Crocker's duties as Chairman of the Board include the following:

- chairing meetings of our board and of the independent directors in executive session;
- meeting with any director who is not adequately performing his or her duties as a member of our board or any committee;
- facilitating communications between other members of our board and the Chief Executive Officer;
- determining the frequency and length of board meetings and recommending when special meetings of our board should be held;

## [Table of Contents](#)

- preparing or approving the agenda for each board meeting; and
- reviewing and, if appropriate, recommending action to be taken with respect to written communications from stockholders submitted to our board.

Our board of directors decided to separate the roles of Chairman of the Board and Chief Executive Officer because it believes that a bifurcated leadership structure offers the following benefits:

- increasing the independent oversight of Merrimack and enhancing our board's objective evaluation of the Chief Executive Officer;
- freeing the Chief Executive Officer to focus on company operations instead of board administration;
- providing the Chief Executive Officer with an experienced sounding board;
- providing greater opportunities for communication between stockholders and our board;
- enhancing the independent and objective assessment of risk by our board; and
- providing an independent spokesman for Merrimack.

## **Board Committees**

Our board of directors has established an audit committee, a corporate governance and nominating committee, an organization and compensation committee and an executive committee, each of which operates under a charter that has been approved by our board. Copies of the committee charters are posted on the Investors section of our website, which is located at [investors.merrimack.com](http://investors.merrimack.com).

### *Audit Committee*

The members of our audit committee are Mr. Crocker, Mr. Quigley and Mr. Ray. Mr. Quigley chairs the audit committee. Our audit committee's responsibilities include:

- appointing, approving the compensation of and assessing the independence of our registered public accounting firm;
- overseeing the work of our independent registered public accounting firm, including through the receipt and consideration of reports and other communications from such firm;
- reviewing and discussing with management and the independent registered public accounting firm our annual and quarterly financial statements and related disclosures;
- monitoring our internal control over financial reporting, disclosure controls and procedures and code of business conduct and ethics;
- overseeing our internal audit function;
- overseeing our risk assessment and risk management policies;
- establishing policies regarding hiring employees from the independent registered public accounting firm and procedures for the receipt and retention of accounting-related complaints and concerns;
- meeting independently with our internal auditing staff, independent registered public accounting firm and management;
- reviewing and approving or ratifying any related person transactions; and
- preparing the audit committee report required by SEC rules.

All audit and non-audit services, other than *de minimis* non-audit services, to be provided to us by our independent registered public accounting firm must be approved in advance by our audit committee.

Our board of directors has determined that Mr. Quigley is an “audit committee financial expert” as defined in applicable SEC rules. We believe that the composition of our audit committee meets the requirements for independence under the current NASDAQ Marketplace Rules and SEC rules and regulations.

The audit committee met eight times during 2015.

### *Corporate Governance and Nominating Committee*

The members of our corporate governance and nominating committee are Mr. Crocker and Dr. Porter. Dr. Porter chairs the corporate governance and nominating committee. Our corporate governance and nominating committee’s responsibilities include:

- identifying individuals qualified to become members of our board;
- recommending to our board the persons to be nominated for election as directors and to each of our board’s committees;
- reviewing and making recommendations to our board with respect to our board leadership structure;
- developing and recommending to our board corporate governance principles; and
- overseeing an annual evaluation of our board.

The corporate governance and nominating committee met six times during 2015.

### *Organization and Compensation Committee*

The members of our organization and compensation committee are Mr. Dineen, Dr. Lee and Dr. Mendelsohn. Mr. Dineen chairs the organization and compensation committee. Our organization and compensation committee’s responsibilities include:

- annually reviewing and approving corporate goals and objectives relevant to the compensation of our Chief Executive Officer and our other executive officers;
- determining our Chief Executive Officer’s compensation;
- reviewing and approving, or making recommendations to our board with respect to, the compensation of our other executive officers;
- overseeing an evaluation of our executive officers;
- overseeing and administering our cash and equity incentive plans;
- reviewing and making recommendations to our board with respect to director compensation;
- reviewing and making recommendations to our board with respect to management succession planning;
- reviewing and discussing annually with management our “Compensation Discussion and Analysis” disclosure required by SEC rules; and
- preparing the organization and compensation committee report required by SEC rules.

The processes and procedures followed by our organization and compensation committee in considering and determining executive and director compensation are described below under “—Board Processes—Executive and Director Compensation Processes.”

The organization and compensation committee met seven times during 2015.

### *Executive Committee*

The members of our executive committee are Mr. Crocker, Mr. Mulroy and Dr. Porter. Mr. Crocker chairs the executive committee. Our executive committee has, and may exercise when necessary, all of the authority and powers of our full board of directors during the intervals between meetings of our board, except as limited by Delaware law.

The executive committee met five times during 2015.

### **Compensation Committee Interlocks and Insider Participation**

The members of our organization and compensation committee during 2015 were Mr. Dineen, who joined our organization and compensation committee in June 2015, Dr. Lee, Dr. Mendelsohn, Dr. Sinskey, who resigned from our board in January 2015, and Mr. Fehr, who resigned from our board in June 2015. No other person served as a member of our organization and compensation committee during 2015. None of our executive officers serves as a member of the board of directors or compensation committee, or other committee serving an equivalent function, of any entity that has one or more executive officers who serve as members of our board of directors or our organization and compensation committee. None of the members of our organization and compensation committee is an officer or employee of Merrimack, nor have they ever been an officer or employee of Merrimack.

### **Board Meetings and Attendance**

Our board of directors met eleven times during 2015. During 2015, each director attended at least 75% of the aggregate of the number of board meetings and the number of meetings held by all committees of our board on which he or she then served.

Our directors are expected to attend our annual meetings of stockholders. Five of our nine directors then serving attended our 2015 Annual Meeting of Stockholders.

### **Board Processes**

#### *Oversight of Risk*

Our board oversees our risk management processes directly and through its committees. Our management is responsible for risk management on a day-to-day basis. The role of our board and its committees is to oversee the risk management activities of management. They fulfill this duty by discussing with management the policies and practices utilized by management in assessing and managing risks and providing input on those policies and practices. In general, our board oversees risk management activities relating to business strategy, acquisitions, capital allocation, organizational structure and certain operational risks; our audit committee oversees risk management activities related to financial controls and legal and compliance risks; our corporate governance and nominating committee oversees risk management activities relating to board composition; and our organization and compensation committee oversees risk management activities relating to our compensation policies and practices and management succession planning. Each committee reports to the full board on a regular basis, including reports with respect to the committee's risk oversight activities as appropriate. In addition, since risk issues often overlap, committees from time to time request that the full board discuss particular risks.

#### *Director Nomination Process*

The process followed by our corporate governance and nominating committee to identify and evaluate director candidates may include requests to board members and others for recommendations, evaluation of the performance on our board and its committees of any existing directors being considered for nomination, consideration of biographical information and background material relating to potential candidates and, particularly in the case of potential candidates who are not then serving on our board, interviews of selected candidates by members of the committee and our board.

In considering whether to recommend any particular candidate for inclusion in our board's slate of recommended director nominees, our corporate governance and nominating committee applies the criteria set forth in our corporate governance guidelines. Consistent with these criteria, our corporate governance and nominating committee expects every nominee to have the following attributes or characteristics, among others: integrity, honesty, adherence to high ethical standards, business acumen, good judgment and a commitment to understand our business and industry.

All of the director nominees are currently members of our board of directors. The nominee biographies under "—Board of Directors—Members of Our Board of Directors" indicate the experience, qualifications, attributes and skills of each of our current directors that led our corporate governance and nominating committee and our board to conclude he or she should continue to serve as a director of Merrimack. Our corporate governance and nominating committee and our board believe that each of the nominees has the individual attributes and characteristics required of our directors, and that the nominees as a group possess the skill sets and specific experience desired of our board as a whole. At the Annual Meeting, stockholders will be asked to consider the election of Mr. Dineen, who has been nominated for election as a director for the first time. Mr. Dineen was appointed to our board in June 2015 by board action. He was initially recommended by our corporate governance and nominating committee, and our board determined to include Mr. Dineen among its nominees.

Our corporate governance and nominating committee considers the value of diversity when selecting nominees, and believes that our board, taken as a whole, should embody a diverse set of skills, experiences and backgrounds. The committee does not make any particular weighting of diversity or any other characteristic in evaluating nominees and directors.

Stockholders may recommend individuals for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials, and information with respect to the stockholder or group of stockholders making the recommendation, including the number of shares of common stock owned by such stockholder or group of stockholders, to our Corporate Secretary at Merrimack Pharmaceuticals, Inc., One Kendall Square, Suite B7201, Cambridge, Massachusetts 02139, Attention: Corporate Secretary. The specific requirements for the information that is required to be provided for such recommendations to be considered are specified in our bylaws and must be received by us no later than the date referenced below in "Other Matters—Deadline for Submission of Stockholder Proposals for 2017 Annual Meeting of Stockholders." Assuming that appropriate biographical and background material has been provided on a timely basis, the corporate governance and nominating committee will evaluate stockholder-recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others.

#### *Executive and Director Compensation Processes*

Our executive compensation program is administered by the organization and compensation committee of our board of directors, subject to the oversight and approval of our full board of directors. Our organization and compensation committee reviews our executive compensation practices on an annual basis and based on this review makes recommendations to our board of directors for approval, which has full discretion to approve or modify the recommendations of the organization and compensation committee.

In designing our executive compensation program, our organization and compensation committee considers publicly available compensation data for national and regional companies in the biotechnology/pharmaceutical industry to help guide its executive compensation decisions at the time of hiring and for subsequent adjustments in compensation. Historically, our organization and compensation committee has also retained the services of Mercer, LLC, or Mercer, an independent compensation consultant, to provide it with additional comparative data on executive compensation practices in our industry and to advise it on our executive compensation program generally. Although the organization and compensation committee considers Mercer's advice and recommendations about our executive compensation program, the organization and compensation committee

---

ultimately makes its own decisions about these matters. None of the organization and compensation committee members and none of our executive officers or directors have any relationship with Mercer or the individual consultants employed by Mercer. Mercer has not provided any other services to Merrimack other than compensation consulting services to the organization and compensation committee. The organization and compensation committee has determined that no conflicts of interest exist between Merrimack and Mercer. The organization and compensation committee is directly responsible for the appointment and oversight of any compensation consultants and other advisors it retains.

Our director compensation program is administered by our board of directors with the assistance of the organization and compensation committee. The organization and compensation committee periodically reviews director compensation and makes recommendations to our board with respect thereto.

### *Communications with Stockholders*

Our management will give appropriate attention to written communications that are submitted by stockholders, and will respond if and as appropriate. Stockholders may communicate with our management by writing to our Corporate Secretary at Merrimack Pharmaceuticals, Inc., One Kendall Square, Suite B7201, Cambridge, Massachusetts 02139, Attention: Corporate Secretary, or by calling (617) 441-1000. Additional information about contacting Merrimack is available on the Investors section of our website, which is located at [investors.merrimack.com](http://investors.merrimack.com).

In addition, stockholders who wish to communicate with our entire board may do so by writing to Gary L. Crocker, Chairman of the Board, Merrimack Pharmaceuticals, Inc., One Kendall Square, Suite B7201, Cambridge, Massachusetts 02139. Communications will be forwarded to other directors if they relate to substantive matters that the Chairman of the Board, in consultation with our General Counsel, considers appropriate for attention by the other directors. In general, communications relating to corporate governance and long-term corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances or matters as to which we tend to receive repetitive or duplicative communications.

### *Corporate Governance Guidelines*

Our board of directors has adopted corporate governance guidelines to assist in the exercise of its duties and responsibilities and to serve the best interests of Merrimack and our stockholders. The guidelines provide that:

- our board's principal responsibility is to oversee the management of Merrimack;
- a majority of the members of our board must be independent directors;
- the independent directors meet in executive session at least twice a year;
- directors have full and free access to management and, as necessary, independent advisors;
- new directors participate in an orientation program and all directors are expected to participate in continuing director education on an ongoing basis; and
- our board will conduct an annual self-evaluation to determine whether it and its committees are functioning effectively.

A copy of the corporate governance guidelines is posted under the heading "Corporate Governance" on the Investors section of our website, which is located at [investors.merrimack.com](http://investors.merrimack.com).

## **Board Policies**

### *Related Person Transactions*

Our board of directors has adopted written policies and procedures for the review of any transaction, arrangement or relationship in which Merrimack is a participant, the amount involved exceeds \$120,000 and one of our executive officers, directors, director nominees or 5% stockholders, or their immediate family members, each of whom we refer to as a "related person," has a direct or indirect material interest.

## Table of Contents

If a related person proposes to enter into such a transaction, arrangement or relationship, which we refer to as a “related person transaction,” the related person must report the proposed related person transaction to our General Counsel. The policy calls for the proposed related person transaction to be reviewed and, if deemed appropriate, approved by our audit committee. Whenever practicable, the reporting, review and approval will occur prior to entry into the transaction. If advance review and approval is not practicable, the audit committee will review, and, in its discretion, may ratify the related person transaction. The policy also permits the chair of the audit committee to review and, if deemed appropriate, approve proposed related person transactions that arise between audit committee meetings, subject to ratification by the audit committee at its next meeting. Any related person transactions that are ongoing in nature will be reviewed annually.

A related person transaction reviewed under the policy will be considered approved or ratified if it is authorized by the audit committee after full disclosure of the related person’s interest in the transaction. As appropriate for the circumstances, the audit committee will review and consider:

- the related person’s interest in the related person transaction;
- the approximate dollar value of the amount involved in the related person transaction;
- the approximate dollar value of the amount of the related person’s interest in the transaction without regard to the amount of any profit or loss;
- whether the transaction was undertaken in the ordinary course of our business;
- whether the terms of the transaction are no less favorable to us than terms that could have been reached with an unrelated third party;
- the purpose, and the potential benefits to us, of the transaction; and
- any other information regarding the related person transaction or the related person in the context of the proposed transaction that would be material to investors in light of the circumstances of the particular transaction.

The audit committee may approve or ratify the transaction only if the audit committee determines that, under all of the circumstances, the transaction is in, or is not inconsistent with, Merrimack’s best interests. The audit committee may impose any conditions on the related person transaction that it deems appropriate.

In addition to the transactions that are excluded by the instructions to the SEC’s related person transaction disclosure rule, our board of directors has determined that the following transactions do not create a material direct or indirect interest on behalf of related persons and, therefore, are not related person transactions for purposes of this policy:

- interests arising solely from the related person’s position as an executive officer of another entity (whether or not the person is also a director of such entity), that is a participant in the transaction, where (a) the related person and all other related persons own in the aggregate less than a 10% equity interest in such entity, (b) the related person and his or her immediate family members are not involved in the negotiation of the terms of the transaction and do not receive any special benefits as a result of the transaction and (c) the amount involved in the transaction equals less than the greater of \$200,000 or 5% of the annual gross revenues of the company receiving payment under the transaction; and
- a transaction that is specifically contemplated by provisions of our charter or bylaws.

The policy provides that transactions involving compensation of executive officers shall be reviewed and approved by the organization and compensation committee in the manner specified in its charter.

Since January 1, 2015, we have not engaged in any related person transactions.

*Code of Business Conduct and Ethics*

Our board of directors has adopted a written code of business conduct and ethics that applies to our directors, officers and employees, including our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. A copy of the code of business conduct and ethics is posted on the Investors section of our website, which is located at [investors.merrimack.com](http://investors.merrimack.com). In addition, we intend to post on our website all disclosures that are required by law or the NASDAQ Marketplace Rules concerning any amendments to, or waivers from, any provision of our code of business conduct and ethics.

## **Compensation Discussion and Analysis**

### *Overview*

This section discusses the principles underlying our policies and decisions with respect to the compensation of our executive officers and the most important factors relevant to an analysis of these policies and decisions. This section also describes the material elements of compensation awarded to, earned by or paid to each of our named executive officers for 2015. Our “named executive officers” for 2015 are Robert J. Mulroy, our President and Chief Executive Officer, Yasir B. Al-Wakeel, our Chief Financial Officer and Head of Corporate Development who joined Merrimack in August 2015, William A. Sullivan, our former Chief Financial Officer and current Principal Accounting Officer and Treasurer, and our three other most highly compensated executive officers, Peter N. Laivins, our Head of Development, William M. McClements, our Head of Corporate Operations, and Birgit M. Schoeberl, our Head of Discovery who became an executive officer in January 2015. In addition, this section provides qualitative information regarding the manner and context in which compensation is awarded to and earned by our executive officers and is intended to place in perspective the data presented in the tables and narrative that follow.

Our organization and compensation committee oversees our policies governing the compensation of our executive officers. In this role, the organization and compensation committee reviews and approves all compensation decisions relating to our named executive officers. Our organization and compensation committee consists of three members of our board of directors, all of whom have extensive experience in our industry and each of whom is an independent director. Our organization and compensation committee uses its judgment and experience and has historically considered the recommendations of our President and Chief Executive Officer when determining the amount and appropriate mix of compensation for each of our executive officers. Specifically, our President and Chief Executive Officer provides input and recommendations, via an annual review of executive performance and otherwise, regarding salary adjustments, the corporate and individual goals used to determine annual performance-based cash bonuses and appropriate equity incentive compensation levels. Historically, our President and Chief Executive Officer has provided input to the organization and compensation committee on his own compensation, but has not had any control over setting the amount or mix of his compensation and is not present when the organization and compensation committee discusses and determines his compensation.

The organization and compensation committee periodically evaluates the need for revisions to our executive compensation program to ensure our program is competitive with the companies with which we compete for executive talent.

### *Objectives and Philosophy of Our Executive Compensation Program*

The primary objectives of the organization and compensation committee with respect to executive compensation are to:

- attract, retain and motivate experienced and talented executives;
- ensure executive compensation is aligned with our corporate strategies, research and development programs and business goals;
- recognize the individual contributions of executives, but foster a shared commitment among executives by aligning their individual goals with our corporate goals;

## [Table of Contents](#)

- promote the achievement of key strategic, development and operational performance measures by linking compensation to the achievement of measurable corporate and individual performance goals; and
- align the interests of our executives with our stockholders by rewarding performance that leads to the creation of stockholder value.

To achieve these objectives, the organization and compensation committee evaluates our executive compensation program with the goal of setting compensation at levels that are justifiable based on each executive's level of experience, performance and responsibility and that the committee believes are competitive with those of other companies in our industry and our region that compete with us for executive talent. In addition, our executive compensation program ties a portion of each executive's overall compensation to the achievement of key corporate and individual goals. We provide a portion of our executive compensation in the form of stock options that vest over time, which we believe helps to retain our executives and aligns their interests with those of our stockholders by allowing them to participate in the longer term success of Merrimack as reflected in the appreciation of our stock price.

### *Consideration of 2015 Advisory Vote on Executive Compensation*

At our 2015 Annual Meeting of Stockholders, we held an advisory vote on our 2014 executive compensation program, and 98% of the votes cast on the matter were voted in support of the program. The organization and compensation committee considered the results of this advisory vote, together with the other factors and data discussed in this proxy statement, in determining executive compensation decisions and policies and believes that the result affirms stockholders' support of our approach to and structure of executive compensation. The organization and compensation committee will continue to consider the outcome of our say-on-pay votes when making future compensation decisions for our named executive officers.

### *Use of Compensation Consultants and Market Benchmarking*

In designing our executive compensation program, our organization and compensation committee considers publicly available compensation data for national and regional companies in the biotechnology/pharmaceutical industry to help guide its executive compensation decisions at the time of hiring and for subsequent adjustments in compensation. Historically, our organization and compensation committee has also retained the services of Mercer, an independent compensation consultant, to provide it with additional comparative data on executive compensation practices in our industry and to advise it on our executive compensation program generally. Although the organization and compensation committee considers Mercer's advice and recommendations about our executive compensation program, the organization and compensation committee ultimately makes its own decisions about these matters. None of the organization and compensation committee members and none of our executive officers or directors have any relationship with Mercer or the individual consultants employed by Mercer. Mercer has not provided any other services to Merrimack other than compensation consulting services to the organization and compensation committee. The organization and compensation committee has determined that no conflicts of interest exist between Merrimack and Mercer.

In February 2014, Mercer provided our organization and compensation committee with comparative data showing where our total compensation and each element of our compensation ranked among (1) both public and private companies in the biotechnology/pharmaceutical industry generally, according to compensation data from the 2013 Radford Global Life Sciences Survey, and (2) a peer group of publicly traded companies in the biotechnology/pharmaceutical industry at a stage of development, market capitalization or size comparable to ours at the time with which the organization and compensation committee believed we competed against for executive talent, according to publicly available compensation data for years prior to 2014. The companies included in that peer group in 2014 were Achillion Pharmaceuticals, Inc., Arena Pharmaceuticals, Inc., Ariad Pharmaceuticals, Inc., ArQule, Inc., Array BioPharma Inc., BioCryst Pharmaceuticals, Inc., Celldex Therapeutics, Inc., Clovis Oncology, Inc., Exelixis, Inc., Idenix Pharmaceuticals, Inc., ImmunoGen, Inc., Infinity

## [Table of Contents](#)

Pharmaceuticals, Inc., InterMune, Inc., Ironwood Pharmaceuticals, Inc., Neurocrine Biosciences, Inc., NPS Pharmaceuticals, Inc., Puma Biotechnology, Inc., Rigel Pharmaceuticals, Inc., Sarepta Therapeutics, Inc., Targacept, Inc., Vanda Pharmaceuticals Inc. and XOMA Corporation.

Our organization and compensation committee did not retain Mercer or any other compensation consultant in early 2015 to provide updated comparative data on executive compensation practices. Our peer group is subject to change, and we expect that our organization and compensation committee will continue to periodically review and update the list, including in early 2016.

Our peer group is used for purposes of gathering data to compare against our existing executive compensation practices and for guiding future compensation decisions. Our compensation consultant also makes suggestions for changes to our executive compensation practices based on the data they provide to us as well as compensation trends in our industry. However, although the organization and compensation committee may consider peer group and other industry compensation data and the recommendations of our compensation consultant when making decisions related to executive compensation, to date, it has not made and does not intend to make adjustments to overall executive compensation or any element thereof solely or primarily either to target a specified threshold level of compensation or market benchmark within the peer group, our larger industry or some other group of comparable companies or to act on the recommendations of our compensation consultant.

### *Annual Compensation Review Process*

After the end of each calendar year, we evaluate each executive's performance for the completed year. Our President and Chief Executive Officer, with respect to each executive other than himself, prepares a written evaluation based on his evaluation of the executive and input from others within Merrimack. Our President and Chief Executive Officer also prepares his own self-assessment. This process leads to a recommendation by our President and Chief Executive Officer to the organization and compensation committee with respect to each executive officer, including himself, as to:

- the achievement of stated corporate and individual performance goals;
- the level of contributions made to the general management and guidance of Merrimack;
- the need for salary increases;
- the amount of bonuses to be paid; and
- whether or not stock option awards should be made.

These recommendations are reviewed by the organization and compensation committee and are taken into account when it makes a final determination on all such matters.

### *Components of Our Executive Compensation Program*

The primary elements of our executive compensation program are:

- base salary;
- annual performance-based cash bonuses;
- equity incentive awards;
- benefits and other compensation; and
- severance and change in control benefits.

We do not have a formal or informal policy for allocating between long-term and short-term compensation, between cash and non-cash compensation or among different forms of non-cash compensation. Instead, our

## [Table of Contents](#)

organization and compensation committee, after reviewing information provided by our compensation consultant and other relevant data, determines subjectively what it believes to be the appropriate level and mix of the various compensation components. We generally strive to provide our named executive officers with a balance of short-term and long-term incentives to encourage consistently strong performance. Ultimately, the objective in allocating between long-term and currently paid compensation is to ensure adequate base compensation to attract and retain personnel, while providing incentives to maximize long-term value for Merrimack and our stockholders. Therefore, we provide cash compensation in the form of base salary to meet competitive salary norms and reward good performance on an annual basis and in the form of bonus compensation to incent and reward superior performance based on specific annual goals. To further focus our executives on longer-term performance and the creation of stockholder value, we rely upon equity-based awards that vest over a meaningful period of time. In addition, we provide our executives with benefits that are generally available to our salaried employees and severance benefits to incentivize them to continue to strive to achieve stockholder value in connection with change in control situations.

### *Base salary*

We use base salaries to recognize the experience, skills, knowledge and responsibilities of our employees, including our executive officers. Base salaries for our named executive officers typically are established through arm's length negotiation at the time the executive is hired, taking into account the position for which the executive is being considered and the executive's qualifications, prior experience and prior salary. None of our executive officers is currently party to an employment agreement that provides for automatic or scheduled increases in base salary. However, on an annual basis, our organization and compensation committee reviews and evaluates, with input from our President and Chief Executive Officer, the need for adjustment of the base salaries of our executives based on changes and expected changes in the scope of an executive's responsibilities, including promotions, the individual contributions made by and performance of the executive during the prior fiscal year, the executive's performance over a period of years, overall labor market conditions, the relative ease or difficulty of replacing the executive with a well-qualified person, our overall growth and development as a company and general salary trends in our industry and among our peer group and where the executive's salary falls in the salary range presented by that data. In making decisions regarding salary increases, we may also draw upon the experience of members of our board of directors with other companies. No formulaic base salary increases are provided to our named executive officers, and we do not target the base salaries of our named executive officers at a specified compensation level within our peer group or other market benchmark.

The following table sets forth the annual base salary for 2014 and 2015 for our named executive officers:

<b>Name</b>	<b>2014 Base Salary (\$ (1))</b>	<b>2015 Base Salary (\$ (2))</b>

- (2) Amounts for Mr. Mulroy, Mr. Sullivan, Mr. Laivins, Mr. McClements and Dr. Schoeberl reflect adjustments made by our organization and compensation committee effective April 1, 2015.
- (3) Dr. Al-Wakeel joined Merrimack in August 2015.

- (5) Dr. Schoeberl became an executive officer in January 2015. Dr. Schoeberl served as our Senior Vice President of Research prior to January 2015.

For 2015, the organization and compensation committee generally determined to adjust the base salaries of each of our named executive officers based on their overall performance in 2014 and their increased level of experience, and to ensure that their salaries remained competitive with those of similarly situated executives in our peer group.

More specifically, our organization and compensation committee increased Mr. Mulroy's base salary by 7.5% for 2015 as a result of his overall performance having exceeded expectations in 2014, including by having achieved substantially all of his individual objectives for 2014. In addition, based on the recommendation of our President and Chief Executive Officer, our organization and compensation committee increased the base salaries for each of Mr. Sullivan and Mr. McClements by 5% for 2015 as a result of their overall performance having met expectations in 2014, increased the base salary of Mr. Laivins by 15.3% for 2015 as a result of his overall performance having exceeded expectations in 2014 and him becoming an executive officer in May 2014, and increased the base salary of Dr. Schoeberl by 7.5% for 2015 as a result of her becoming an executive officer in January 2015.

Please refer to "—Employment Agreements" for a listing of the base salaries of each of our named executive officers for 2016.

### *Annual performance-based cash bonuses*

We have designed our annual performance-based cash bonus program to emphasize pay-for-performance and to reward our named executive officers for (1) the achievement of specified annual corporate objectives, (2) the achievement of specified annual individual performance objectives and (3) the support of the overall management of Merrimack and the creation of long-term value for Merrimack's stockholders, which we refer to as the general management contribution. Each executive officer is eligible to receive an annual performance-based cash bonus, which we refer to as an annual cash bonus, in an amount up to a fixed percentage of his or her base salary, or bonus percentage.

For Mr. Mulroy, our organization and compensation committee weighs each of the three foregoing elements equally when determining the percentage of the annual cash bonus that he will receive. Achievement of each of Mr. Mulroy's corporate and individual objectives is measured on a successful/unsuccessful basis, and proportionate achievement of a particular objective is not taken into account.

For each of Dr. Al-Wakeel, Mr. Sullivan, Mr. Laivins, Mr. McClements and Dr. Schoeberl, our organization and compensation committee looks at the three foregoing elements as a whole when determining the annual cash bonus. If the organization and compensation committee determines that the named executive officer has substantially satisfied the three elements as a whole, then the named executive officer will receive his or her full annual cash bonus. On the other hand, if the organization and compensation committee determines that the named executive officer has not substantially satisfied the elements as a whole, then the named executive officer will not receive an annual cash bonus.

The annual corporate objectives component of the annual cash bonus focuses on the achievement of specific research, clinical, regulatory, commercial, operational and financial milestones, with a focus on the advancement

of our product candidates in preclinical and clinical development, the commercialization of our products, the pursuit of various internal initiatives and ensuring the adequate funding of Merrimack. The corporate objectives are proposed by senior management each year in our annual operating plan that is reviewed and approved by our board of directors at its regularly scheduled meeting in the fourth quarter of our fiscal year, with such modifications as our board deems appropriate.

The annual individual performance objectives component of the annual cash bonus focuses on contributions made by each individual executive officer within their respective areas of responsibility that facilitate the achievement of our corporate objectives. Each executive officer, including our President and Chief Executive Officer, proposes his or her own annual individual objectives at the start of each fiscal year, which are then reviewed and approved by the organization and compensation committee, with such modifications as the committee deems appropriate.

Our organization and compensation committee has the authority to shift both corporate and individual goals to subsequent fiscal years and eliminate them from the current year's bonus calculation if it determines that circumstances that were beyond the control of the executive were the primary cause of a goal being unattainable. The corporate and individual objectives established by our board of directors and the organization and compensation committee are designed to require significant effort and operational success on the part of our executives and Merrimack, but also to be achievable with hard work and dedication.

The general management contribution of each executive officer, including our President and Chief Executive Officer, is evaluated retrospectively by our President and Chief Executive Officer, who reports his findings to the organization and compensation committee. Historically, each executive officer has been evaluated on his or her contributions to the following areas:

- the improvement of processes and efficiency;
- the development of human and scientific capacity; and
- the development and management of stakeholders, including partners, collaborators, investigators, stockholders and licensees.

Each executive officer's contributions are evaluated on a scale of 0 to 3, with 0 meaning that the executive officer made no contribution, 1 meaning that the executive officer's contributions were below expectations, 2 meaning that the executive officer's contributions met expectations and 3 meaning that the executive officer's contributions exceeded expectations. The executive officer's scores in each of the categories for the particular year are totaled and the ratio of the executive officer's score to the maximum number of points that the executive officer could have earned across all categories is used to determine what portion of this element of the annual cash bonus that the executive officer will earn. The organization and compensation committee reviews and has the authority to approve the evaluation prepared by our President and Chief Executive Officer or to adjust it in a manner that it sees fit. While this element of the annual cash bonus is inherently subjective in nature, we believe that it is important to recognize the contributions made by our executive officers that do not appear in the operating plan, via objective individual goals or on our financial statements. These contributions may have an impact beyond the current fiscal year, and we believe that giving a partial weighting in the annual cash bonus calculation to these intangible contributions made by an executive officer is appropriate in light of our long-term goal of developing a motivated workforce and creating stockholder value.

The bonus percentages for each executive officer are set by the organization and compensation committee. These bonus percentages are derived from peer group data that is adjusted to match the level of qualification and experience of the executive officer, but are guided by our overarching "team-based" philosophy. Our organization and compensation committee believes that our executive officers should function as a team and that one way to foster a collaborative, team-based environment is to provide for each executive officer to have a similar bonus percentage.

Our organization and compensation committee has authority, in its sole discretion, to adjust the bonus percentage each year in connection with its review of the executive officer's performance and to allow an executive officer to receive a bonus payment in excess of his or her annual cash bonus for exceptional performance. In addition, our organization and compensation committee reviews the assessment of each executive officer's performance conducted by the organization and compensation committee with respect to the annual cash bonus and retains the authority, in its sole discretion, to modify the amount of the annual cash bonus above or below the amount recommended by the organization and compensation committee.

## **2015 bonuses**

For 2015, Mr. Mulroy was eligible to receive an annual cash bonus of up to 50% of his 2015 base salary, and each of Dr. Al-Wakeel, Mr. Sullivan, Mr. Laivins, Mr. McClements and Dr. Schoeberl was eligible to receive an annual cash bonus of up to 35% of his or her respective 2015 base salary. The bonus percentage for each of our named executive officers for 2015 was the same as in 2014.

For 2015, the annual corporate objectives were as follows:

- gaining FDA approval for and successfully launching ONIVYDE® in the United States;
- launching additional clinical trials of ONIVYDE to expand the label and supporting Baxalta's worldwide registration efforts with respect to ONIVYDE;
- advancing our clinical pipeline and integrated diagnostics;
- advancing our preclinical pipeline; and
- securing additional capital through business development transactions.

Our organization and compensation committee considered all of the information available to it at the time and determined that we fully achieved the first, second and fourth of our above-listed 2015 corporate objectives, but that we only partially achieved the third and fifth of our above-listed 2015 corporate objectives due to slower than expected enrollment in certain of our clinical trials and having secured additional capital through financing means other than business development. As a result, Mr. Mulroy was allocated 60% of the portion of the annual cash bonus related to the achievement of the annual corporate objectives. In addition, the organization and compensation committee concluded that each of the other named executive officers had substantially satisfied the element related to the achievement of the annual corporate objectives.

For 2015, the individual goals for each of our named executive officers were primarily related to the corporate goals for which they were most responsible and, to a lesser extent, individual development goals or department specific goals.

Mr. Mulroy's individual objectives for 2015 related to gaining FDA approval for and successfully launching ONIVYDE in the United States, advancing our clinical trial and diagnostic capabilities, driving our next generation discovery efforts, executing a business development transaction to fund development efforts and developing Merrimack's management team. Our organization and compensation committee determined that Mr. Mulroy achieved the individual objectives related to gaining FDA approval for and successfully launching ONIVYDE in the United States, driving our next generation discovery efforts and developing Merrimack's management team, but only partially achieved the individual objectives related to advancing our clinical trial and diagnostic capabilities and executing a business development transaction to fund development efforts. As a result, our organization and compensation committee allocated Mr. Mulroy 60% of the portion of his annual cash bonus related to the achievement of annual individual objectives.

Dr. Al-Wakeel joined Merrimack in August 2015 and, therefore, did not have any specific individual objectives for 2015. Nonetheless, our organization and compensation committee determined that Dr. Al-Wakeel's

---

performance through the end of 2015 was sufficient for him to have substantially satisfied the element related to the achievement of annual individual objectives.

Mr. Sullivan's individual objectives for 2015 related to supporting various fundraising and business development opportunities, supporting the design and implementation of our commercial supply chain operations, complying with all of our obligations as a public company, building our finance team and preparing our 2016 operating plan. Our organization and compensation committee determined that Mr. Sullivan achieved each of his individual objectives and had substantially satisfied the element related to the achievement of annual individual objectives.

Mr. Laivins's individual objectives for 2015 related to submitting a new drug application for ONIVYDE and gaining FDA approval, supporting Baxalta's registration efforts, launching our clinical trial of ONIVYDE in front-line pancreatic cancer and meeting enrollment goals for our clinical trial of MM-302. Our organization and compensation committee determined that Mr. Laivins achieved the individual objectives related to submitting a new drug application for ONIVYDE and gaining FDA approval, supporting Baxalta's registration efforts and launching our clinical trial of ONIVYDE in front-line pancreatic cancer, and partially achieved the individual objective related to meeting enrollment goals for our clinical trial of MM-302, which had experience slower enrollment than anticipated. As a result, our organization and compensation committee determined that Mr. Laivins had substantially satisfied the element related to the achievement of annual individual objectives. Mr. Laivins also had an individual objective for 2015 related to advancing MM-111, which was not considered due to Merrimack's decision not to invest in additional development of MM-111 at this time.

Mr. McClements' individual objectives for 2015 related to driving successful operation of our internal corporate structure, building critical organizational capabilities and infrastructure to support continued growth, developing leadership throughout the organization and building a strong external communications profile for Merrimack. Our organization and compensation committee determined that Mr. McClements achieved the individual objectives related to driving successful operation of our internal corporate structure, building critical organizational capabilities and infrastructure to support continued growth, and developing leadership throughout the organization, and partially achieved the individual objective related to building a strong external communications profile for Merrimack, on which substantial progress had been made. As a result, our organization and compensation committee determined that Mr. McClements had substantially satisfied the element related to the achievement of annual individual objectives.

Dr. Schoeberl's individual objectives for 2015 related to launching clinical trials for MM-121, MM-141 and MM-151, launching a diagnostic-driven clinical trial and advancing our preclinical product candidates. Our organization and compensation committee determined that Dr. Schoeberl achieved the individual objectives related to launching clinical trials for MM-121 and MM-141 and launching a diagnostic-driven clinical trial, and partially achieved the individual objectives related to launching a clinical trial for MM-151 and advancing our preclinical product candidates, on which substantial progress had been made but were not completed due to reasons outside of her control. Dr. Schoeberl also had an individual objective for 2015 related to advancing MM-111, which was not considered due to Merrimack's decision not to invest in additional development of MM-111 at this time.

Our President and Chief Executive Officer conducted a thorough review of the third element of each executive officer's annual cash bonus, the general management contribution of each executive officer, and reported his findings, including his findings with respect to himself, to our organization and compensation committee. Our organization and compensation committee determined that the contributions made by Mr. Mulroy met expectations for 2015 and that he was entitled to receive 66.7% of this portion of his annual cash bonus payment. In addition, our organization and compensation committee determined that the contributions made by Dr. Al-Wakeel, Mr. Sullivan, Mr. Laivins, Mr. McClements and Dr. Schoeberl met or exceeded expectations for 2015 and that each such named executive officer had substantially satisfied the element related to the general management contribution.

## [Table of Contents](#)

The following table sets forth each named executive officer's annual cash bonus eligibility (both as a percentage of 2015 base salary and in actual dollars), the total cash bonus paid and the total cash bonus paid as a percentage of salary. Our organization and compensation committee did not use its discretion to adjust Mr. Mulroy's annual cash bonus beyond the amount calculated. The organization and compensation committee also determined that each of our other named executive officer had substantially satisfied all three elements as a whole and should receive his or her full annual cash bonus.

### *Equity incentive awards*

Our equity award program is the primary vehicle for offering long-term incentives to our executives. While we do not currently have any equity ownership guidelines for our executives, we believe that equity grants provide our executives with a strong link to our long-term performance, create an ownership culture and help to align the interests of our executives and our stockholders. Because our executives profit from stock options only if our stock price increases relative to the stock option's exercise price, we believe that stock options provide meaningful incentives to our executives to achieve increases in the value of our stock over time. In addition, the vesting feature of our equity grants contributes to executive retention by providing an incentive to our executives to remain employed by us during the vesting period. During 2015, all stock options were granted pursuant to our 2011 Stock Incentive Plan. Under our 2011 Stock Incentive Plan, our employees and executive officers are eligible to receive grants of stock options, restricted stock, restricted stock units, stock appreciation rights and other stock-based equity awards at the discretion of our organization and compensation committee.

We use stock options to compensate our named executive officers both in the form of initial grants in connection with the commencement of employment and generally on an annual basis thereafter. Our organization and compensation committee may also make additional discretionary grants, typically in connection with the promotion of an employee, to reward an employee, for retention purposes or for other circumstances recommended by management. Typically, the stock options we grant to our executive officers vest quarterly over a three year period. Vesting and exercise rights cease shortly after termination of employment, except in the case of death or disability. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to such option, including voting rights or the right to receive dividends or dividend equivalents.

The exercise price of all stock options granted since the closing of our initial public offering is equal to the fair market value of shares of our common stock on the date of grant, which generally is determined by reference to the closing market price of our common stock on the date of grant. It is our intention to grant equity awards annually.

In determining the size of the annual stock option grants to our named executive officers, our organization and compensation committee considers recommendations developed by our compensation consultant, including information regarding comparative stock ownership of and equity grants received by the executives in our peer group and our industry. In addition, our organization and compensation committee considers our corporate performance, the potential for enhancing the creation of value for our stockholders, the amount of equity previously awarded to the executives and the vesting of such awards.

## 2015 grants

In February 2015, as part of our annual grant process, our organization and compensation committee granted options to purchase shares of our common stock to our named executive officers, as set forth in the table below. Each of these options vests quarterly over a three year period and has an exercise price of \$9.08, the closing market price of our common stock on the date of grant.

<b>Name</b>	<b>Number of Shares Underlying Stock Option Grant</b>
Robert J. Mulroy	250,000
William A. Sullivan	90,000
Peter N. Laivins	150,000
William M. McClements	90,000
Birgit M. Schoeberl	125,000

In granting the annual options, our organization and compensation committee considered, among other things, the value of annual grants as a percentage of base salary received by executives in our peer group and our industry, or the peer analysis. Based on the recommendation of our President and Chief Executive Officer, our organization and compensation committee determined that it would be appropriate to target these options at slightly above the 50<sup>th</sup> percentile of the peer analysis for named executive officers that met expectations during 2014 given the potential for Merrimack to become a commercial company later in 2015. Our organization and compensation committee determined that Mr. Mulroy, Mr. Sullivan, Mr. Laivins, Mr. McClements and Dr. Schoeberl met or exceeded expectations during 2014. Our organization and compensation committee also increased the option grants to Mr. Laivins and Dr. Schoeberl as a result of them becoming executive officers in May 2014 and January 2015, respectively.

In addition, in August 2015, our organization and compensation committee granted an option to purchase 300,000 shares of our common stock to Dr. Al-Wakeel in connection with him joining Merrimack. This option vests quarterly over a three year period and has an exercise price of \$10.08, the closing market price of our common stock on the date of grant.

## *Benefits and other compensation*

We believe that establishing competitive benefit packages for our employees is an important factor in attracting and retaining highly qualified personnel. We maintain broad-based benefits that are provided to all employees, including medical insurance, dental insurance, vision insurance, group life insurance, accidental death and dismemberment insurance, long and short term disability insurance, medical and dependent care flexible spending accounts, work welfare stipends and matching contributions in our 401(k) plan. All of our executive officers are eligible to participate in all of our employee benefit plans, in each case on the same basis as other employees. Under our 401(k) plan, we are permitted to make discretionary contributions and matching contributions, subject to established limits and a vesting schedule. Currently, we generally match 50% of employee contributions up to a maximum contribution by us of 3% of the employee's deferrable income, subject to employer match limitations by the Internal Revenue Service. The match vests at 25% per year over four years. We also provide each employee, including our executive officers, with an annual \$1,250 work welfare stipend that can be used to pay for services such as personal professional development, public transportation passes, gym memberships and medical insurance co-pays. In addition, we subsidize \$15 per month of the membership fee to the gym in our office complex for all employees, including our executive officers. Our executive officers are also entitled to supplemental long-term disability insurance coverage that is not available to our other employees. Consistent with our compensation philosophy, we intend to continue to maintain our current benefits for our named executive officers. The organization and compensation committee in its discretion may revise, amend or add to the named executive officer's benefits and perquisites if it deems it advisable.

## [Table of Contents](#)

In particular circumstances, we sometimes award cash signing bonuses when executive officers first join us. Such cash signing bonuses typically must be repaid in full if the executive officer voluntarily terminates employment with us prior to the first anniversary of the date of hire. Whether a signing bonus is paid and the amount of the bonus is determined on a case-by-case basis under the specific hiring circumstances. For example, we will consider paying signing bonuses to compensate for amounts forfeited by an executive upon terminating prior employment, to assist with relocation expenses or to create additional incentive for an executive to join Merrimack in a position where there is high market demand.

### *Severance and change in control benefits*

Pursuant to employment agreements we have entered into with our executive officers, our executive officers are entitled to specified benefits in the event of the termination of their employment under specified circumstances, including termination following a change in control of Merrimack. Please refer to “—Employment Agreements” for a more detailed discussion of these benefits. We have provided estimates of the value of the severance payments and other benefits that would have been made or provided to executive officers under various termination circumstances under the caption “—Potential Payments Upon Termination or Change in Control” below.

We believe that providing these benefits helps us compete for executive talent. After reviewing the practices of companies represented in our peer group, we believe that our severance and change in control benefits are generally in line with severance packages offered to executives of the companies in our peer group.

We have structured our change in control benefits as “double trigger” benefits. In other words, the change in control does not itself trigger benefits. Rather, benefits are paid only if the employment of the executive officer is terminated during a specified period after the change in control. We believe that a “double trigger” benefit maximizes stockholder value because it prevents an unintended windfall to executive officers in the event of a friendly change in control, while still providing them appropriate incentives to cooperate in negotiating any change in control in which they believe they may lose their jobs.

### **Organization and Compensation Committee Report**

The organization and compensation committee of the board of directors of Merrimack Pharmaceuticals, Inc. has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with Merrimack’s management. Based on such review and discussions, the organization and compensation committee recommended to the board of directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference into Merrimack’s Annual Report on Form 10-K for the year ended December 31, 2015.

### **Risk Considerations in Our Compensation Program**

Our organization and compensation committee has reviewed and evaluated the philosophy and standards on which our compensation plans have been developed and implemented across Merrimack. It is our belief that our compensation programs do not encourage inappropriate actions or risk taking by our executive officers. We do not believe that any risks arising from our employee compensation policies and practices are reasonably likely to have a material adverse effect on Merrimack. In addition, we do not believe that the mix and design of the

## [Table of Contents](#)

components of our executive compensation program encourage management to assume excessive risks. We believe that our current business process and planning cycle fosters the behaviors and controls that would mitigate the potential for adverse risk caused by the action of our executives, including the following:

- annual establishment of corporate and individual objectives for our performance-based cash bonus programs for our executive officers that are consistent with our annual operating and strategic plans, that are designed to achieve the proper risk/reward balance, and that should not require excessive risk taking to achieve;
- the mix between fixed and variable, annual and long-term and cash and equity compensation are designed to encourage strategies and actions that balance our short-term and long-term best interests; and
- stock option awards vest over a period of time, which we believe encourages executives to take a long-term view of our business.

### **Limits on Hedging and Pledging**

As part of our insider trading policy, all employees, including executive officers, and members of our board of directors are prohibited from engaging in certain types of hedging transactions involving our securities, specifically short sales, including short sales “against the box,” and purchases or sales of puts, calls or other derivative securities. Our insider trading policy also prohibits certain types of pledges of our securities by all employees, including executive officers, and members of our board of directors, specifically purchases of our securities on margin, borrowing against our securities held in a margin account or pledging our securities as collateral for a loan, with an exception for pledges of our securities as collateral for a loan only after certain prerequisites are met and only with the pre-approval of our Chief Financial Officer or General Counsel.

### **Tax and Accounting Considerations**

Section 162(m) of the Internal Revenue Code of 1986, as amended, or the Code, generally disallows a tax deduction for compensation in excess of \$1.0 million paid to each of our Chief Executive Officer and our three other most highly paid executive officers (other than our Chief Financial Officer). Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. We intend to periodically review the potential consequences of Section 162(m), and we generally intend to structure the performance-based portion of our executive compensation, where feasible, to comply with exemptions in Section 162(m) so that the compensation will remain tax deductible to us. However, the organization and compensation committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent and are in the best interests of our stockholders.

We account for equity compensation paid to our employees in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, *Compensation—Stock Compensation*, or ASC 718, which requires us to measure and recognize compensation expense in our financial statements for all stock-based payments based on an estimate of their fair value over the service period of the award. We record cash compensation as an expense at the time the obligation is accrued.

- (1) The amounts in the “Option Awards” column reflect the aggregate grant date fair value of stock options granted during the year computed in accordance with the provisions of ASC 718, excluding the impact of estimated forfeitures related to service-based vesting conditions (which in our case were none). The assumptions that we used to calculate these amounts are discussed in Note 15 to our consolidated financial statements appearing in our Annual Report on Form 10-K for the year ended December 31, 2015.

Name	Option Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)
Robert J. Mulroy	630,765	6,048,711

### Securities Authorized for Issuance under Equity Compensation Plans

The following table contains information about our equity compensation plans as of December 31, 2015. As of December 31, 2015, we had three equity compensation plans, all of which were approved by our stockholders: our 1999 Stock Option Plan, as amended, our 2008 Stock Incentive Plan, as amended, and our 2011 Stock Incentive Plan.

#### Equity Compensation Plan Information

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)

Equity compensation plans not approved by security holders	—	—	—
Total	19,210,857	\$ 5.7234	2,462,341(1)

- (1) Reflects the total number of shares of our common stock available for future issuance under our 2011 Stock Incentive Plan as of December 31, 2015. Our 2011 Stock Incentive Plan contains an “evergreen” provision, which allows for an annual increase in the number of shares of our common stock available for issuance under the plan on the first day of each fiscal year. The annual increase in the number of shares is equal to the lowest of: (i) 4,500,000 shares of our common stock; (ii) 3.5% of the number of shares of our common stock outstanding on the first day of the fiscal year; and (iii) an amount determined by our board of directors. On January 1, 2016, 4,055,488 shares of our common stock were added to our 2011 Stock Incentive Plan pursuant to this provision.

**Employment Agreements**

We have entered into employment agreements with each of our executive officers. Each of these agreements renews automatically on December 31 of each year for successive one year terms, unless either we or the executive officer gives notice of non-renewal.

These employment agreements prohibit our executive officers, during the term of employment and any severance period and for a period of one year thereafter, from competing with us and soliciting or hiring our employees. Our executive officers also are bound by the terms of separate non-competition, non-solicitation, non-disclosure and developments agreements.

Pursuant to the terms of these employment agreements, our named executive officers currently receive the following base salaries, which have been adjusted by our organization and compensation committee since our named executive officers originally entered into the employment agreements, and are eligible for the following bonus percentages.

<b>Name</b>	<b>2016 Base Salary (\$ (1))</b>	<b>2016 Bonus Percentage</b>
Robert J. Mulroy	598,689	50%
Yasir B. Al-Wakeel	370,000	35%
William A. Sullivan	321,273	35%
Peter N. Laivins	333,704	35%
William M. McClements	386,237	35%
Birgit M. Schoeberl	317,778	35%

(1) Amount reflects adjustment made by our organization and compensation committee that became effective April 1, 2016.

Upon execution and effectiveness of a severance agreement and release of claims, each executive officer is entitled to severance payments if we terminate the executive officer's employment without cause, as defined in the employment agreement, including our decision not to renew the executive officer's term of employment, or the executive officer terminates employment with us for good reason, as defined in the employment agreement.

If an executive officer's employment terminates under these circumstances, in each case prior to a change in control, as defined in the employment agreement, we are obligated for a period of 12 months (nine months for Dr. Al-Wakeel and Mr. Laivins until they are employed with us for five years) to pay such executive officer his or her base salary, pay for coverage for such executive officer under any company sponsored insurance and benefit programs available to our senior management employees and, to the extent allowed by applicable law and the applicable plan documents, continue to provide to such executive officer all company employee benefit plans and arrangements available to our senior management employees. In addition, we would be obligated to pay to each of our executive officers a pro-rata bonus for the portion of the year in which such executive officer was employed by us based on his or her average annual bonus payments over each of the three years prior to the year of termination, or such lesser period during which such executive officer served as one of our executive officers.

If an executive officer's employment terminates under these circumstances, in each case within 18 months following a change in control, we are obligated to pay such executive officer a lump sum amount equal to 36 months of his or her base salary plus a bonus equal to three times the average of his or her annual bonus payments over each of the three years prior to the year of termination, or such lesser period during which such executive officer served as one of our executive officers, accelerate the vesting of all outstanding stock options, restricted stock or other equity awards granted to the executive officer, pay for coverage for such executive officer under any company sponsored insurance and benefit programs available to our senior management employees for a period of 18 months and, to the extent allowed by applicable law and the applicable plan documents, continue to provide to such executive officer all company employee benefit plans and arrangements available to our senior management employees for a period of 18 months.

## [Table of Contents](#)

If we terminate an executive officer's employment due to disability, the executive officer will be eligible to receive a pro-rata bonus for the portion of the year in which such executive officer was employed by us based on his or her average annual bonus payments over each of the three years prior to the year of termination, or such lesser period during which such executive officer served as one of our executive officers.

### Potential Payments Upon Termination or Change in Control

The following tables set forth information regarding potential payments that each named executive officer who was serving as an executive officer as of December 31, 2015 would have received if the named executive officer's employment had terminated as of December 31, 2015 under the circumstances set forth below. Because Dr. Al-Wakeel and Dr. Schoeberl did not become executive officers until August 2015 and January 2015, respectively, for purposes of the tables below, we have utilized the cash bonus that each received for 2015 as an executive officer in calculating the cash payment amounts due upon termination.

- (1) The amounts in the "Value of Stock Options with Accelerated Vesting" column represent the value of unvested stock options, calculated by multiplying the number of shares subject to the accelerated portion of the option by the amount (if any) by which \$7.90, the closing market price of our common stock on December 31, 2015, exceeds the exercise price of such option.

Name	Termination for Disability

**Pension Benefits**

We do not maintain any defined benefit pension plans.

**Nonqualified Deferred Compensation**

We do not maintain any nonqualified deferred compensation plans.

**401(k) Plan**

We maintain a defined contribution employee retirement plan for our employees. Our 401(k) plan is intended to qualify as a tax-qualified plan under Section 401 of the Code so that contributions to our 401(k) plan, and income earned on such contributions, are not taxable to participants until withdrawn or distributed from the 401(k) plan. Our 401(k) plan provides that each participant may contribute up to 100% of his or her pre-tax compensation, up to a statutory limit, which was \$18,000 for 2015. Participants who are at least 50 years old can also make “catch-up” contributions, which in 2015 was up to an additional \$6,000 above the statutory limit. Under our 401(k) plan, each employee is fully vested in his or her deferred salary contributions. Employee contributions are held and invested by the plan’s trustee. Our 401(k) plan also permits us to make discretionary contributions and matching contributions, subject to established limits and a vesting schedule. For 2015, we generally matched 50% of employee contributions up to a maximum contribution by us of 3% of the employee’s deferrable income, subject to employer match limitations by the Internal Revenue Service.

At the Annual Meeting, stockholders will vote to elect nine directors for a one year term beginning at the Annual Meeting and ending at our 2017 Annual Meeting of Stockholders.

Our board is comprised of nine members. Our board has nominated Mr. Crocker, Mr. Dineen, Dr. Lee, Dr. Mendelsohn, Mr. Mulroy, Dr. Nielsen, Dr. Porter, Mr. Quigley and Mr. Ray for re-election as directors, each to hold office until the 2017 Annual Meeting of Stockholders and until their respective successors have been duly elected and qualified or until their earlier death, resignation or removal. Each of the nominees is currently a member of our board. The persons named in the enclosed proxy card will vote to elect each of the nominees as directors, unless and to the extent authority to vote for the election of one or more of the nominees is withheld by marking the proxy to that effect. In the event that any nominee should be unable to serve, discretionary authority is reserved for the named proxy holders to vote for a substitute, or to reduce the number of directors to be elected, or both. We believe that each of our nominees will be willing and able to serve if elected.

**OUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF EACH OF THE NOMINEES AS DIRECTORS.**

### Proposal 2: Advisory Vote on Executive Compensation

We are providing our stockholders the opportunity to vote to approve, on an advisory, non-binding basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with the SEC's rules. This proposal, which is commonly referred to as "say-on-pay," is required by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, which added Section 14A to the Exchange Act. Consistent with the preference expressed by our stockholders at our 2015 Annual Meeting of Stockholders, we have determined to hold an advisory vote on executive compensation annually.

Our executive compensation programs are designed to attract, motivate and retain our executive officers, who are critical to our success. Under these programs, our named executive officers are rewarded for the achievement of our short-term and longer-term financial and strategic goals and for driving corporate financial performance and stability. The programs contain elements of cash and equity-based compensation and are designed to align the interests of our executives with those of our stockholders.

The "Executive Compensation" section of this proxy statement, including "Compensation Discussion and Analysis," describes in detail our executive compensation programs and the decisions made by the organization and compensation committee and our board with respect to the year ended December 31, 2015. As we describe in the Compensation Discussion and Analysis, our executive compensation program embodies a pay-for-performance philosophy that supports our business strategy and aligns the interests of our executives with our stockholders. Our board believes this link between compensation and the achievement of our short- and long-term business goals has helped drive our performance over time. At the same time, we believe our program does not encourage excessive risk-taking by management.

Our board is asking stockholders to approve a non-binding advisory vote on the following resolution:

*RESOLVED, that the compensation paid to Merrimack's named executive officers, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the compensation discussion and analysis, the compensation tables and any related material disclosed in this proxy statement, is hereby approved.*

## [Table of Contents](#)

As an advisory vote, this proposal is not binding. The outcome of this advisory vote does not overrule any decision by us or our board (or any committee thereof), create or imply any change to the fiduciary duties of us or our board (or any committee thereof), or create or imply any additional fiduciary duties for us or our board (or any committee thereof). However, our organization and compensation committee and our board value the opinions expressed by our stockholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for named executive officers.

**OUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS.**

### **Proposal 3: Ratification of Independent Auditors**

The audit committee of our board of directors has selected the firm of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016. PricewaterhouseCoopers LLP has served as our independent registered public accounting firm since the fiscal year ended December 31, 2001. Although stockholder approval of the selection of PricewaterhouseCoopers LLP is not required by law or NASDAQ Marketplace Rules, our audit committee believes that it is advisable and has decided to give our stockholders the opportunity to ratify this selection. If this proposal is not approved at the Annual Meeting, our audit committee may reconsider this selection.

Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting and will have the opportunity to make a statement if they desire to do so. It is also expected that they will be available to respond to appropriate questions from stockholders.

**OUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF THE SELECTION OF PRICEWATERHOUSECOOPERS LLP AS MERRIMACK'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2016.**

## STOCK OWNERSHIP AND REPORTING

### Security Ownership of Certain Beneficial Owners and Management

The following table sets forth information with respect to the beneficial ownership of our common stock as of April 15, 2016 by:

- each of our named executive officers;
- each of our current directors and director nominees; and
- all of our executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules and regulations of the SEC and includes voting or investment power with respect to our common stock. Shares of our common stock subject to options that are currently exercisable or exercisable within 60 days after April 15, 2016 are considered outstanding and beneficially owned by the person holding the options for the purpose of calculating the percentage ownership of that person, but not for the purpose of calculating the percentage ownership of any other person. Except as otherwise noted, to our knowledge, the persons and entities in this table have sole voting and investing power with respect to all of the shares of our common stock beneficially owned by them, subject to community property laws, where applicable. The inclusion herein of any shares as beneficially owned does not constitute an admission of beneficial ownership.

The column entitled “Percentage of Shares Beneficially Owned” is based on a total of 116,458,673 shares of our common stock outstanding as of April 15, 2016. On April 18, 2016, we began issuing additional shares of our common stock to settle conversion of convertible notes held by certain holders, as described in our Current Report on Form 8-K filed on April 14, 2016, and such additional shares are not included in the calculations below. Except as otherwise set forth below, the address of the beneficial owner is c/o Merrimack Pharmaceuticals, Inc., One Kendall Square, Suite B7201, Cambridge, Massachusetts 02139. Beneficial ownership representing less than one percent of our outstanding common stock as of April 15, 2016 is denoted with an “\*.”
